FILE LISTS, BY STATE, OF SELECTED SERIES OF RECORDS OF THE FORMER GENERAL LAND OFFICE

These lists are intended to acquaint the users of this guide with a quick introduction to the kinds of records available to researchers interested in the activities of the General Land Office in a particular State or Territory. Some of the series listed consist of large quantities of records relating to many if not all of the States and Territories west of the Mississippi River, but they contain easily discernible State or Territorial segments. In some instances, the lists identify individual files within these larger segments. Other entries are for considerably smaller series consisting of volumes covering a few States or Territories or of records relating to a single State or Territory. Because most of the series of records described in the guide contain information relating in some way to the individual States and Territories these lists of selected series should not be considered definitive. For example, many series of records in Division "C" (Public Lands) relate to the disposal of lands in the various States and Territories, but only a few, chiefly those containing names of entrymen, are listed. For most entries more detailed information about the contents of the series is found in the text of the guide.

The alpha-numeric citations in braces that accompany the series titles are entry numbers assigned to the series as listed in the various sections of the Master Location Register (MLR) for Record Group 49, Records of the Bureau of Land Management. These MLR numbers are essential to the retrieval of the records series. The "PI 22" numbers refer to the land entry papers and related records described in the 1949 *Preliminary Inventory of the Land-Entry Papers of the General Land Office* (Preliminary Inventory 22). The "UD" designation, which is used for most series, identifies series accessioned by the National Archives before 1977 that were not described in a published finding aid. The "A1" numbers identify series accessioned after 1977. Also shown for some series are "Entry" numbers that identify "Division" and "Additional Records" series listed in the informal 1973 finding aid titled "Administrative Records of the General Land Office, 1785–1955," which is available for use by those researchers who visit the National Archives Building in Washington, DC.

[Note: Unless otherwise indicated footage figures are shown only for series that are complete entities or for State/Territory segments of large series that are readily identified and easily measured.]

District Land Offices and Their Dates of Operation

Land Office	Opening	Closing
Prescott	Oct. 1, 1870	Sept. 30, 1905
Florence	June 2, 1873	June 30, 1881
Tucson	July 12, 1881	Sept. 30, 1905
Phoenix	Oct. 2, 1905	1946

The relationship between the land offices is shown in the listings of the land entry papers given below.

LAND ENTRY PAPERS AND RELATED RECORDS, 1871–1908 (83 ft.), PI 22, Entry 41. [Gila, Salt River, and Navajo Meridians].

Dates of operation follow the names of the land offices. Also shown, in braces, is the complete span of Master Location Register (MLR) numbers covering the records for those offices, e.g., {PI22 41 __–__}. When appropriate, MLR numbers from within the spans are given for subordinate headings. Gaps in the numerical sequences are common.

Prescott, 1870–1905 {PI22 41–41 H}: Cash entry files, 1871–1905: 1–716; Homestead final certificate files, 1871–1905: 1–853; Canceled homestead entry files, 1873–1905: 9–1868; Timber culture final certificate files, 1883–97: 1–16; Canceled timber culture entry files, 1874–1904: 1–128; Desert land final certificate files, 1883–1905: 1–31; Canceled desert land entry files, 1877–1905: 1–158; Abandonment of preemption claim, 1879: 1052 (now filed with cash entry 178); Indian allotment files, 1892–1904: 5–62.

Phoenix, 1905–46 {PI22 41 I–N}: Cash files entry, 1906–8: 1–172; Homestead final certificate files, 1905–9: 1–312; Canceled homestead entry files, 1905–8: 1–185; Desert land final certificate files, 1905–8: 1–15, 25; Canceled desert land entry files, 1905–8: 1–195; Indian allotment files, 1906–8: 1–81.

Florence, 1873–81; Tucson, 1881–1905 {PI22 41 O–V}: Cash entry files, 1873–1905: 1–1749; Homestead final certificate files, 1875–1905: 1–1472; Canceled homestead entry files, 1874–1905: 2–5317; Timber culture final certificate files, 1876–1903: 1–46; Desert land final certificate files, 1879–1905: 1–737; Canceled desert land entry files, 1877–1905: 1–3320; Relinquishment files, Pima County (under the act of Feb. 5, 1875, "An Act to grant title to certain lands in the Territory of Arizona"), 1876–1902: 1–77.

Algondones Land Grant {PI22 41 V}: Cash entry files (under the Act of Jan. 14, 1901), 1901–3: 1–4.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If

it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the Phoenix land office. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 02-65-0001.

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries (965A–965K), including the following:

Press copies of letters sent to Registers and Receivers located at Phoenix (965F)
Press copies of letters sent to Surveyor General, Arizona (965H)

DIVISION "B": **Agricultural College Scrip** {PI22 20}. No scrip was issued by Arizona Territory, but scrip issued by eligible States was entered at the Prescott land office. See **Abstracts of Land Transactions** under Division "D" (Mail and Files).

DIVISION "C": **Letters Sent to Registers and Receivers, 1881–97 segment** {UD 116}. Div. Entry 6.

Arizona, 1881–87 (2 vols., nos. 591–592, 4 in.)

DIVISION "C": **Press Copies of Miscellaneous Letters Sent, State Series, 1872–1906** {UD 114}. Div. Entry 4.

Arizona, 1872–1906 (8 vols., nos. 1–8, 8 in.). See also New Mexico (vols. 3–6, 1880–85)

DIVISION "D" (Private Land Claims): **[Confirmed] Private Land Claims Papers** {PI22 34A}. Entry shows span of claim numbers and footage.

Arizona, nos. 1–227 (ca. 3 ft.)

DIVISION "D" (Private Land Claims): **Indexes to Private Land Claims Dockets** {UD 2319}.

Arizona/New Mexico/Colorado/Etc. (1 vol., ca. 4 in)

Division "D" (Private Land Claims): Report of Special Agent R.C. Hopkins on Private Land Claims in the Territory of Arizona, 1879, 1879–80 (2 vols., 3 in.), {UD 213}. Div. Entry 7. Report of his examination of the Archives of the State of Sonora, Mexico, to obtain data concerning the land grants made by the Governments of Spain and Mexico to aid in "detecting and preventing the consummation of fraudulent titles" in the territory ceded by the Gadsden treaty. The report includes transcriptions in Spanish of original records and some English translations. It is indexed by name of Rancho or land claim. A "duplicate" of the report is found in the second volume, which also contains "the original memorandums" Hopkins made during his examination of the records.

Division "D" (Private Land Claims): Docket of Private Land Claims in Arizona, ca. 1876–1902 (1 vol., 1 in.), {UD 213A). This volume is a brief of papers filed during the period 1876 to 1902. The entries, arranged in rough numerical order by claim entry, give background information regarding the grant and identify the papers filed, date of filing and page number and volume number of the journal in which they are transcribed.

Division "D" (Private Land Claims): Journals of Private Land Grants, ca. 1879–95 (5 vols., 10 in.), {UD 213B}. These volumes contain transcripts of the papers listed in the docket described in the previous entry. Some of the documents are in Spanish. A typed index to the contents of volumes 1 through 4 is found at the beginning of volume 1.The entries are arranged alphabetically by name of grant. Volume 5 is blank.

Division "D" (Private Land Claims): List of Confirmed or Surveyed Private Land Claims in Arizona, California, Colorado, Florida, Louisiana, and New Mexico, 1855–99 (1 vol., 2 in.), {UD 786}. Div. "M," Entry 79. The volume, which appears to be a record of survey fees, is filed with the records of Division "M" (Accounting).

Division "D" (Mail and Files): Patent Files (14 vols., 4 ft.), {UD 2118}. The volume and page numbers necessary to locate an individual patent are found on the jacket of the land entry file. Volume titles vary.

Division "D" (Mail and Files): Abstracts of Land Transactions, 1871–1908.

Florence, 1873–81 (3 vols., ca. 1 ft)	{UD 2384}
Phoenix, 1905–8 (4 vols., 1 ft.)	{UD 2387}
Prescott, 1871–1905 (22 vols., ca. 6 ft.) including abstract of agricultural college scrip	{UD 2386}
Tucson, 1881–1905 (26 vols., ca. 7 ft.)	{UD 2385}

Division "D" (Mail and Files): Abstracts of Mineral Applications, ca. 1836–1908 {UD 2290}. Volumes include abstracts covering applications for patents, adverse claims, entries, receipts and certificates. The Arizona volumes in this series, ca. 1873–1908 (17 vols., ca. 2 ft.), are listed below; asterisks indicate that entries for that particular land office are also found in a multi-State/Territory vol-

ume of applications for patent titled "Alaska, Arizona, Arkansas, California,"ca. 1867–1900. Dates for the abstracts are not readily discernible, but they may fall outside the date span shown for the land office volumes.
Phoenix, 1905–8 (2 vols., 4 in.)
*Prescott, 1878–1905 (6 vols., 10 in.)
*Tucson, 1873–83 (9 vols., 1 ft.)

Division "D" (Mail and Files): Coal Land Abstracts, ca. 1866–1908 {UD 2284}.

Alaska/Arizona/Arkansas, 1890–1908 (1 vol., 2 in.)

Abstracts of Military Bounty Land Locations: In the entries shown below volume numbers are provided to facilitate identification. The numbering system was somewhat erratic; some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series relating to several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrant Locations, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 listed below.

Arizona/Colorado/Montana/Nevada/New Mexico/Oregon/SouthDakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. The act of March 22, 1852, authorized the issuance of warrants to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable. All soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants under the act of March 3, 1855. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

Acts of 1842, 1847, 1850, 1852
Alabama/Arizona, 1875–1904 (1 vol., 1 in.)
Florence, act of 1850, 1889; Tucson, acts of 1852, 1855, 1887–1902; Prescott, acts of 1847, 1855, 1889–1902

Act of 1855
Nevada/Utah/Montana/Idaho/New Mexico/Arizona/Wyoming, 1860–76 (1 vol., 1 1/4 in.)
Arizona/Idaho/Montana/NewMexico/ Washington/Wyoming/Utah, 1878–85 (1 vol., 1 in.)

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected,

created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Arkansas: Camden, Harrison, and Little Rock. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 61–65–0001. The number 61 is used for all States within the jurisdiction of BLM's Eastern States Office.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State thereunder by land office and application number, consists of papers relating to land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the land offices listed below.

Camden (ca. 24 ft.)
Dardanelle (1 ft.)
Harrison (ca. 39 ft.)

Private Land Claims Records

Nine series of records specifically concern the disposition of private land claims in that portion of the Louisiana Purchase that became Arkansas, but many of the records relating to private land claims in Missouri also pertain to Arkansas, which was part of Missouri Territory. The records include plats, diagrams, claims, certifications of surveys, letters, court documents, and other items submitted as evidence in support of the foreign land grants. Some of the series concern fraudulent claims, including the "Bowie" claims. Other series relate to claims by Col. William Russell and the heirs of Nathaniel Philbrook. Records relating to the Bowie, Philbrook (Porier), and Russell claims are also found in the **[Confirmed] Private Land Claims Papers** {PI22 34A} listed below. For additional information see *Private Claims: Arkansas and Missouri* (H.Doc. 59, 24th Cong., 1st sess.), vols. 52 and 53 in the Division "K" Reference Library {UD 702}.

Division "D" (Private Land Claims): [Confirmed] Private Land Claims Papers (181 ft.), {PI22 34A}. Entry shows span of claim numbers and footage.

Cartographic Records

Division "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Arkansas" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number

preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are in the custody of NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in California: El Centro, Eureka, Independence, Los Angeles, Redding, Riverside, Sacramento, Oakland/San Francisco, Susanville, Visalia. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 04–65–0001.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State, thereunder by land office and application number, consists of papers relating to land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files contain the same type of documentation found in the patented serial case files. Files are included for the El Centro Land Office (1 ft.).

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Record Entry 30 [Press copies of letters sent to land offices, ca. 1907–14]. Series consists of several subseries (965A–965K), including the following:

Abstracts of Military Bounty Land Locations. In the entries shown below volume numbers are provided to facilitate identification. The numbering system was somewhat erratic; some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers

not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Cartographic Records

DIVISION "E": **General Records, ca. 1785–1966.** What follows is a somewhat enhanced transcription of the "California" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are in the custody of NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Colorado: Del Norte, Denver, Durango, Glenwood Spring, Hugo, Lamar, Leadville, Montrose, Pueblo, and Sterling. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 05–65–0001.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State and thereunder by land office and application number, consists of papers relating to some land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the land offices listed below.

Pueblo (ca. 387 ft.)
Sterling (ca. 1 ft.)

Abstracts of Military Bounty Land Locations. When available, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic; some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of vol-

umes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Arizona/Colorado/Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (1 vol., 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Colorado/Dakota Territory, 1864–78 (1 vol., 1 1/4 in.)
Denver, Fair Play, Pueblo, Central City, 1864–78
Akron/Central City/Denver/Pueblo, 1890–91 (1 vol., 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable.

California/Washington/Utah/Colorado/New Mexico/Montana Territory/Dakota Territory, 1858–92 (1 vol., 1 in.)
Denver, 1870

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 3, 1855 {UD 2225}. Warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

Cartographic Records

DIVISION "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Colorado" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are in the custody of NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Idaho: Blackfoot, Boise, Coeur d'Alene, Hailey, and Lewiston. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 11-65-0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries (965A–965K), and includes the following:

Blackfoot/Boise/Hailey/Lewiston, 1883–1908 (1 vol., 1 1/2 in.)

Abstracts of Military Bounty Land Locations. The numbering systems used for volumes in the series listed below were somewhat erratic; some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several State and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Florida/Dakota/Louisiana/Idaho/Nebraska/Illinois/Indiana, 1851–1904 (1 vol., 1 1/4 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Under the act of March 3, 1855, all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

Act of 1855
South Dakota/Louisiana/Florida/Idaho, 1861–1904 (1 vol., 1 1/2 in.)
Nevada/Utah/Montana/Idaho/New Mexico, 1860–76 (1 vol., 1 1/4 in.)

Cartographic Records

Division "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Idaho" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are held by NARA's Cartographic and Architectural Records section.

Division "F": Correspondence Relating to Segregation Lists Submitted Under the Carey Act of 1894, 1895–1925 (3 ft.), {UD 587}. Div. Entry 55. The records are arranged alphabetically by name of State and thereunder numerically by file or segregation list number.

Other Records

Division "F": Miss Hadley's Files Relating to Land Selections Under State Grants for School and Internal Improvements, ca. 1826–1947 {UD 588}. Div. Entry 56. Idaho files are in box 11, but it should be noted that box numbers are subject to change. Pre-1913 files are listed below.

University lands, 1888–1911

Division "G": Docket of Contested Preemption Cases, 1855–97 (22 vols.), {UD 649}. Div. Entry 57. Entries for Idaho are found in volumes 1, 11, 15, and 19.

Division "G": "Credit Books," 1837–1908 (26 vols.), {UD 655}. Div. Entry 63. This series consists of sev-

eral sets of volumes, some independently numbered, others unnumbered, providing information about approved preemption claims. Entries for Idaho are found in volume 1 of the first segment; additional entries for the State may be found in volumes with spines that do not identify their contents.

DIVISION "G": **"Original Desert Land Entries," ca. 1879–1911** (10 vols., 2 ft.), {UD 2332}. Volumes are arranged by name of State, thereunder by land office. Entries give name of entryman, number of original land entry, date received, action taken, and date. Related volumes are the **Index to Desert Land Certificates** (1 vol., 1 in.), {UD 2336} and **"Final Desert Land Entries," ca. 1880–1910** (5 vols., ca. 1 ft.), {UD 2333}.

DIVISION "G": **Original State Selection Lists of Lands for Schools, Public Buildings, and Internal Improvements, 1861–1913** {UD 618}. Div. Entry 26. Included are selection lists for a university, an agricultural college; a scientific school; normal schools; an asylum for the insane; a penitentiary; public buildings; and charitable institutions. The following land districts are represented:

Blackfoot
Boise
Coeur d'Alene
Hailey
Lewiston

DIVISION "G": **Registers of Approved Indemnity School Lands and State Selection Lists, 1866–1937** {A1 2025}. Closing dates for individual State segments are not always easily discernible and may go beyond the date shown below.

Idaho, 1902–34 (7 vols., ca. 1 ft.)

DIVISION "G": **Idaho School Indemnity Selection Lists, 1904–6** (1 vol., 2 in.), {UD 628}. Div. Entry 36. Selection lists from the Blackfoot and Boise district land offices give land descriptions of tracts selected under an act of July 3, 1890, providing for the replacement for lands lost from a Congressional grant to the State for the support of public schools. The lists give the reason why the grant lands were unavailable (such as Indian reservation, swamp, or forest reserve) and show whether the indemnity selections were approved or rejected. Also included are non-mineral affidavits and related correspondence.

DIVISION "G": **School Land Grant Status and Use Cards, ca. 1806–1933** (32 ft.), {A1 2385}. Date spans for individual States are not readily discernible.

Idaho (ca. 3 ft.)

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the

patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the Des Moines Land Office. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 61–65–0001. The number 61 is used for patents issued by all States within the jurisdiction of the BLM's Eastern States Office.

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Cartographic Records

Division "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Iowa" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are held by NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Kansas: Colby, Dodge City, and Topeka. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 15–65–0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries, (965A–965K), and includes the following:

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrant Locations, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Kansas, 1857–90 (vol. 39, 3 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Cartographic Records

Division "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Kansas" index entries in Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and annotated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are in the custody of NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Louisiana: Baton Rouge/New Orleans and Natchitoches. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 61–65–0001. The number 61 is used for patents issued by all States within the jurisdiction of the BLM's Eastern States Office.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State and thereunder by land office and application number, consists of papers relating to some land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before

patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the land offices listed below.

Baton Rouge (ca. 82 ft.)
Natchitoches (ca. 3 ft.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in some series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 below.

Greensburg/Natchitoches/New Orleans (vol. 40, 2 1/2 in.)
Opelousas/Ouachita, Monroe (vol. 41, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Greensburg/Monroe (vol. 117, 1 1/2 in.)
Natchitoches/New Orleans (vol.118, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, State and Land Offices, Act of March 22, 1852 {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable. See also entry for UD 2239 below.

Indiana/Kansas/Louisiana/Mississippi/Nebraska (vol. 175, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 3, 1855 {UD 2225}. Warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres. See also entry for UD 2239 below.

Monroe/Natchitoches/Greensburg/Opelousas, 1855–59 (vol. 231, 3 in.)
Greensburg/Monroe/Natchitoches/New Orleans/Opelousas, 1860–61 (vol. 232, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Minnesota: Cass Lake, Crookston, and Duluth. In 1964 the BLM adapted a system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 61–65–0001. The number 61 is used for patents issued by all States within the jurisdiction of BLM's Eastern States Office.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State, thereunder by land office and application number, consists of papers relating to land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the land offices listed below.

Cass Lake (ca. 45 ft.)
Duluth (ca. 55 ft.)

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consist of several subseries {965A–965K}, including the following:

Copies of Letters Sent to Field Division: Eighth Division (Minnesota) {965C}
Correspondence with Registers and Receivers located at Crookston and Duluth {965D}
Press copies of letters sent to Registers and Receivers located at Cass Lake, Crookston, and Duluth {965F}

Division "B": Agricultural College Scrip (116 ft.), {PI22 20}. No scrip was issued by Minnesota, but scrip issued by eligible States was entered at Minnesota land offices. See **Abstracts of Land Transactions** under Division "D" (Mail and Files).

Division "C": Letters Sent to Registers and Receivers, 1881–97 segment {UD 116}. Div. Entry 6.

Minnesota, 1887–97 (24 vols., nos. 735–750, ca. 4 ft.)

Division "C": Press Copies of Miscellaneous Letters Sent, State Series, 1872–1906 {UD 114}. Div. Entry 4.

Minnesota, 1879–1906 (117 vols., nos. 24–139, ca 10 ft.)

Division "C": Press Copies of Letters Sent Pertaining to Logging, 1897–99, 1904–7 (9 vols., 1 ft.), {UD 159}. Most of these letters relate to logging operations on pine lands in Minnesota and Wisconsin that were ceded to the United States by the Chippewa Indians. Other records documenting the logging operations are listed with the records of Division "K," which assumed supervision of the logging activities in 1907.

Division "D" (Mail and Files): Abstracts of Land Transactions, 1848–1908 (359 vols., ca. 99 ft.). Abstracts for some land offices are found in more than one set of volumes. See titles below.

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Alexandria/Brownsville/Chatfield/Buchanan/Duluth/Minneapolis/Forest City/Greenleaf/Benson/Stillwater/Cambridge/Taylor's Falls/Faribault/St. Peter (vol. 43, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Alexandria/Brownsville/Chatfield/Winnebago City/Jackson/Buchanan/Portland/Duluth/Crookston (vol. 128, 2 in.)

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numeri-**

cal index (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the Springfield Land Office. In 1964 the BLM adopted a numbering system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 61–65–0001. The number 61 is used for patents issued by all States within the jurisdiction of BLM's Eastern State Office.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State, thereunder by land office and application number, consists of papers relating to land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the Springfield Land Office (ca. 11 ft.).

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

DIVISION "C": **Schedules of Land Sales and Relinquishments, Missouri, 1818–27** (ca. 3 ft.), {UD 1046}. The schedules cover transactions in the Franklin land district during 1818, 1819, 1821, 1824, and 1827. The information recorded includes names of purchasers.

Private Land Claims Records

Approximately 40 series of records document the disposition of private land claims in that portion of the Louisiana Purchase that became Missouri. These records are too extensive to list here, but a brief note on their content is given below. The series are divided into three categories:

1. Records concerning the adjustment of titles and the settlement of claims stemming from concessions made by French and Spanish Governors in the districts of Cape Giradeau, New Madrid, St. Charles, and St. Genevieve, and the communities of Portage des Sioux, St. Charles, St. Louis, St. Ferdinand, Village à Robert Carondelet, St. Genevieve, New Madrid, New Bourbon, Little Prairie, and Arkansas in the territory of Missouri. Some of these records include plats of the villages.
2. Records concerning the New Madrid claims arising from the New Madrid earthquake of 1811.
3. Other records concerning a) claims to the commons of Carondelet, including one by Frederick Dent, U.S. Grant's father-in-law; b) a disputed survey of the Grand Prairie and Cul de Sac Commons; and 3) the status of individual claims. Among the latter are those of Jean F. Perry assignee of Angelica Chauvin; of Louis Labeaume, Pierre Chouteau, Joseph Brazeau, and Esther, to land in St. Louis; and of Auguste Chouteau, an assignee of Genevieve Routier. The Chouteau series {UD 416} includes inventories of real estate and personal property, marriage contracts, wills, and numerous deeds for persons whose grants were involved in the Chouteau claim.

Property inventories are available for Joseph Mainville, Jose Mainville, Louis Robert, Sr., and Louis Robert, Jr., and Louis Bissonett and his widow, Genevieve Bissonett.

Marriage contracts are for Joseph Mainville and Anne Chancelier, Ignace LaRoche and Marie Bequet, Pedro Chorret and Maria Josefa Quercereau (Kiercereau), and Louis Bissonett and Genevieve Routier.

Wills are for Josepte Lacroix, Joseph M. Langlois, Juan Baptiste Provenche, Louis Bissonett, Genevieve Routier Bissonett, and Auguste Chouteau.

Additional materials relating to the claims of the individuals mentioned above and numerous others are found in the series **[Confirmed] Private Land Claims Papers** {PI 22 34A}. For additional information see *Private Claims: Arkansas and Missouri* (H.Doc. 59, 24th Cong., 1st sess.), vols. 52 and 53 in the Division "K" **Reference Library** {UD 702}.

DIVISION "D" (Mail and Files): **Index of Patentees of Military Bounty Land Warrants Under the Act of 1812, Located in Missouri** (1 vol., 2 in.), {UD 2198}. The entries in this undated volume are arranged alphabetically by name of patentee and include date of patent, warrant number, warrantee's military rank, name of company in which he served, and legal description of the land. The patents are retained by the Bureau of Land Management. The index is reproduced on roll 1 of National Archives Microfilm Publication M848, *War of 1812 Military Bounty Land Warrants, 1815–1858* (14 rolls), which is a reproduction of the series **Military Bounty Land Warrants, Act of 1812** {UD 2004}.

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Various Acts

Division "D" (Mail and Files): Abstracts [Registers] of Military Bounty Land Warrant Locations In Arkansas, Illinois, and Missouri Under the Act of May 6, 1812 (7 vols., ca. 2 ft.), {UD 2193}. The act established military tracts in Michigan, Illinois, and Louisiana Territory (Arkansas) for the location of land by warrants to be issued to noncommissioned officers and soldiers who enlisted for 5 years or the duration of the War of 1812. In 1815 the Michigan tract was abandoned in favor of one in Missouri.

Missouri, 1819 (vol. 6, 1 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Acts of 1812, 1842, State and Land Office Listing: Alabama–Wisconsin (2 vols., 4 in.), {UD 2195}. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812. Volume 2, "Michigan–Wisconsin," contains abstracts for Missouri.

Division "E": Letters Received from the Surveyor General of Illinois, Missouri, and Arkansas, 1813–32 (5 vols., 9 in.), {UD 470}. Div. Entry 52. Chronologically arranged letters and related material pertaining to the survey of public lands in Illinois, Missouri, and Arkansas, including letters received by Deputy Surveyor William Rector from Jared Mansfield, Surveyor General of the United States. One of the early documents, dated April 20, 1814, is a 15-page discussion of the lands in Missouri Territory. Oversized plats and sketches are folded to page size. Also included is a bound copy of the written opinion of the Attorney General of the United States, June 10, 1824, regarding the conduct of William Rector, Surveyor of Public Lands in Illinois, Missouri, and Arkansas. These records have been reproduced as part of National Archives Microfilm Publication M1323, *Letters and Surveying Contracts Received by the General Land Office from the Surveyor General for Illinois, Missouri, and Arkansas, 1813–1832* (2 rolls).

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office, and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Montana: Billings, Bozeman, Glasgow, Great Falls, Havre, Helena, Kalispell, Lewistown, Miles City, and Missoula. In 1964 the BLM adopted a system using a two-digit code for the State issuing the patent, a two-digit code for the fiscal year of issue, and the patent number, e.g., 25–65–001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries, {965A–965K} including the following:

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrant Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable. See also entry for UD 2239 below.

Various Acts
Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Acts of 1812, 1842, State and Land Office Listing: Alabama–Wisconsin (2 vols., 4 in.), {UD 2195}. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812. Volume 2, "Michigan–Wisconsin," contains abstracts for Montana.

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. All soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants under the act of March 3, 1855. Recipients were entitled to 160 total acres and those receiving tracts of few acres under previous acts were granted warrants for the balance of 160 acres.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office, and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Nebraska: Alliance, Broken Bow, Lincoln, North Platte, O'Neill, and Valentine. In 1964 the BLM adopted a new system using a

two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 26–65–0001.

DIVISIONAL RECORDS

The Nebraska segment covers the period 1854–69.

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B," or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Nebraska, 1857–1905 (vol. 65, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790.

Florida/Dakota/Louisiana/Idaho/Nebraska/Illinois/Indiana, 1851–1904 (1 vol., 1 1/2 in.)
Brownsville/Beatrice/Dakota City/Niobrara/Lowell/Bloomington/Grand Island/ McCook (vol. 143, 2 1/2 in.)
Nebraska City/Lincoln/Omaha/West Point/Neligh/North Platte/Valentine (vol. 144, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable.

Indiana/Kansas/Louisiana/Mississippi/Nebraska (vol. 175, 2 1/2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 3, 1855 {UD 2225}. Warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres. See also entry UD 2239 below.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office, and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Arkansas: Carson City and Elko. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 27–65–0001.

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Correspondence with Registers and Receivers located at Elko {965D}
Press copies of letters sent to Registers and Receivers located at Carson City, Elko {965F}
Press copies of letters sent to Surveyor General, Nevada {965H}

DIVISION "B": **Agricultural College Scrip** (116 ft.), {PI22 20}. No scrip was issued by Nevada, but scrip issued by eligible States was entered at the Carson City Land Office. See **Abstracts of Land Transactions** under Division "D" (Mail and Files).

DIVISION "C": **Letters Sent to Registers and Receivers, 1881–97 segment** {UD 116}. Div. Entry 6.

Nevada, 1881–88 (1 vol., no. 800, ca. 2 in.)

Division "C": Press Copies of Miscellaneous Letters Sent, State Series, 1872–1906, {UD 114}. Div. Entry 4.

Nevada, 1877–1906 (4 vols., nos. 1–4, 4 in.)

Division "D" (Mail and Files): Patent Files (14 vols., ca. 4 ft.), {UD 2125}. The volume and page numbers necessary to locate an individual patent are found on the jacket of the land entry file. Volume titles vary.

Division "D" (Mail and Files): Abstracts of Land Transactions, 1864–1907 (20 vols., ca. 5 ft.). Abstracts for some land offices are found in more than one set of volumes. See titles below.

Austin (now Eureka), 1868–75 (1 vol., 3 in.)	{UD 2627}
Belmont/Pioche, 1873–76 (1 vol., 3 in.)	{UD 2629}
Carson City, 1864–1907 (17 vols., ca. 4 ft.) including abstract of agricultural college scrip	{UD 2626}
Elko, 1872–77, (1 vol., 3 in.)	{UD 2630}
Eureka, 1876–93 (5 vols., ca. 1 ft.)	{UD 2628}

The Nevada segment covers the period 1864–72.

Division "D" (Mail and Files): Abstracts of Mineral Applications, ca. 1836–1908 (19 vols., ca. 2 ft.), {UD 2290}. Volumes include abstracts covering applications for patents, adverse claims, entries, receipts and certificates. The Nevada volumes in this series, 1866–1908 (19 vols., ca. 2 ft.), are listed below; asterisks indicate entries for that particular land office are also found in a multi-State/Territory volume (2 in.) of applications for patent, 1866–1900, with annotations as late as 1905. Dates for the abstracts are not readily discernible, but they may fall outside the date span shown for the land office volumes.

Eureka, 1876–92 (5 vols., 7 in.)
Elko, 1872–77 (1 vol., 1/2 in.)

Abstracts of Military Bounty Land Locations: In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some vol-

umes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

DIVISION "D" (Mail and Files): **Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847** {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

DIVISION "D" (Mail and Files): **Abstracts of Military Bounty Land Warrant Locations, Act of 1850, New Mexico, North Dakota, Nevada, Oregon and Missouri, 1851–1901** (1 vol., 2 in.), {UD 2218}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. See also entry for UD 2239 below.

DIVISION "D" (Mail and Files): **Abstracts of Military Bounty Land Warrant Locations, Various States and Years** {UD 2239}. Information about the 1850 act is given above. Under the act of March 3, 1855, warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, and chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

Division "G": Record of Kansas, Florida, and Nevada State School Indemnity Selections, 1862–82 (1 vol., 2 in.), {UD 629}. Div. Entry 37. Although labeled "Kansas", this volume also includes indemnity school selections submitted from the Carson City and Eureka land offices in Nevada. The selection lists contain descriptions of the lands containing portions of Sections 16 and 36 lost to the State, description of tracts selected to supply the deficiency, and show whether selections were approved or disapproved.

Division "G": Docket of Contested Preemption Cases, 1855–97 (22 vols.), {UD 649}. Div. Entry 57. Spines show entries for Nevada are found in volumes 1, 11, 15, and 19.

Division "G": "Credit Books," 1837–1908 (26 vols.), {UD 655}. Div. Entry 63. This series consists of several sets of volumes, some independently numbered, others unnumbered providing information about approved claims. Spines show that entries for Nevada are found in volumes 1 and 3 of the first set and volume 1 of another set; additional entries may possibly be found in volumes with spines that do not identify their contents.

Townsite and Reservation Files:

Division "K" Docket Files Relating to Federal Townsites and Other Sites in the Public Land States, 1858–1955 {UD 683}, Div. Entry 12, and **Townsite Files, 1908–55** {UD 683A}. Additional Records Entry 42. Files for most of the sites listed below are found only in the Division "K" segment. Sites covered by files only in the Additional Records segment are identified by [AR]. Asterisks indicate the availability of townsite plats held by NARA's Cartographic and Architectural Records section. Plats are also available for other Nevada townsites. Some are post dated 1912.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in New Mexico: Clayton, Fort Sumner, Las Cruces, Roswell, Santa Fe, and Tucumcari. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 30–65–0001.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State, thereunder by land office and application number, consists of papers relating to some land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the land offices listed below.

Las Cruces (ca. 370 ft.)
Santa Fe (ca. 112 ft.)

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Copies of Letters Sent to Field Divisions: Twelfth Division (New Mexico) {965C}
Correspondence with Registers and Receivers located at Fort Sumner, Roswell, Santa Fe, Tucumcari {965D}
Press copies of letters sent to Registers and Receivers located at Clayton, Ft. Sumner, Las Cruces, Roswell, Santa Fe, Tucumcari {965F}

Division "B": Agricultural College Scrip (116 ft.), {PI22 20}. No scrip was issued by New Mexico Territory, but scrip issued by eligible States was entered at New Mexico land offices. See **Abstracts of Land Transactions** under Division "D" (Mail and Files).

Division "C": Letters Sent to Registers and Receivers, 1881–97 segment {UD 116}. Div. Entry 6.

New Mexico, 1881–88 (3 vols., nos. 801–803, ca. 6 in.)

Division "C": Press Copies of Miscellaneous Letters Sent, State Series, 1872–1906 {UD 114}. Div. Entry 4.

New Mexico, 1873–1906 (23 vols., nos. 2–24, ca. 2 ft.)

Division "D" (Private Land Claims): [Confirmed] Private Land Claims Papers (181 ft.), {PI22 34}. Entry shows span of claim numbers and footage.

New Mexico/Colorado, nos. 1A–215 (ca. 18 ft.)

Division "D" (Private Land Claims): List of Confirmed or Surveyed Private Land Claims in Arizona, California, Colorado, Florida, Louisiana, and New Mexico, 1855–99 (1 vol., 2 in.), {UD 786}. Div. "M," Entry 79. The volume, which appears to be a record of survey fees, is filed with the records of Division "M" (Accounting).

Division "D" (Mail and Files): Patent Files (35 vols., ca. 9 ft.), {UD 2126}. The volume and page numbers necessary to locate an individual patent are found on the jacket of the land entry file. Volume titles vary.

Division "D" (Mail and Files): Abstracts of Land Transactions, 1861–1908 (102 vols., ca. 25 ft.).

Clayton, 1893–1908 (16 vols., 4 ft.)	{UD 2632}

Santa Fe, 1861–1908 (37 vols., ca. 9 ft.) including abstracts of agricultural college scrip and Dodge scrip	{UD 2637}

Division "D" (Mail and Files): Abstracts of Mineral Applications, ca. 1836–1908 {UD 2290}. Volumes include abstracts covering applications for patents, adverse claims, entries, receipts and certificates. The New Mexico volumes in this series, 1871–1908 (12 vols., ca. 9 in.), are listed below; asterisks indicate entries for that particular land office are also found in a multi-State/Territory volume (2 in.) of applications for patent, 1866–1900, with annotations as late as 1905. Dates for the abstracts are not readily discernible, but they may fall outside the date span shown for the land office volumes.

*Las Cruces,. 1876–1908 (6 vols., 1 ft.)
*Roswell, 1889–1908 (1 vol., 1 1/2 in.)
*Santa Fe, 1871–1908 (4 vols., 6 in.)

Division "D" (Mail and Files): Coal Land Abstracts, ca. 1866–1908 {UD 2284}.

Clayton/Las Cruces, 1900–8 (1 vol. 2 in.)
Roswell, 1880–1908 (1 vol., 2 in.)
Santa Fe, 1879–1908 (4 vol., 5 1/2 in.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry UD 2239 below.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of 1850, New Mexico, North Dakota, Nevada, Oregon and Missouri, 1851–1901 (1 vol., 2 in.), {UD 2218}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. See also entry for UD 2239 below.

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into

service after 1812 under the same provisions stated in the Act of 1850. The act also made the warrants assignable. See also entry UD 2239 below.

California//Washington/Utah/Colorado/New Mexico/Montana//Dakota, 1858–1892 (1 vol., 1 in.)
Santa Fe, 1873

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Provisions of the acts of 1847, 1850, and 1852 are explained above. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812. All soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants under the act of March 3, 1855. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in North Dakota: Bismarck, Devils Lake, Dickinson, Fargo, Minot, and Williston. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 33–65–0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consist of several subseries {965A–965K}, including the following:

Bismarck/Devils Lake/Dickinson/Williston, 1885–1908 (1 vol., 2 in.)
Minot, 1899–1908 (2 vols., 3 in.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 below. Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of September 28, 1850, State and Land Offices {UD 2219}. Warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790. See also entry for UD 2239 below.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Oklahoma: El Reno, Guthrie, Lawton, and Woodward. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 35–65–0001.

Unpatented Serial Case Files, 1908–64 (ca. 1872 ft.), {A1 69A}. This series, arranged by State, thereunder by land office and application number, consists of papers relating to land entry applications that were voluntarily relinquished by the entryman or were canceled or rejected, before patents were issued. These case files include the same type of documentation found in the patented serial case files. Files are included for the Guthrie Land Office (ca. 84 ft.).

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Cartographic Records

Division "E": General Records, ca. 1785–1966. What follows is a somewhat enhanced transcription of the "Indian Territory" and "Oklahoma" entries in the index to Special List 19, *List of Cartographic Records of the General Land Office*. The entries cover four series: Manuscript and anno-

tated maps (M); Boundary survey maps and Diagrams (B); Field notes and related records (F); and Published maps, consisting of special published maps (P), standard published maps (SP with date span), and published boundary survey maps (PB). Each entry below includes a letter indicating the series, the State name if applicable, and the number of the item description in the Special List. An asterisk after a number preceded by "F" indicates a map or plat rather than field notes. The entries are listed without regard to the dates of the maps. These records are in the custody of NARA's Cartographic and Architectural Records section.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–1964. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Oregon: Burns, La Grande, Lakeview, Portland, Roseburg, The Dalles, and Vale. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 36–65–0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consist of several subseries {965A–965K}, including the following:

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 below.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of 1850, New Mexico, North Dakota, Nevada, Oregon and Missouri, 1851–1901 (1 vol., 2 in.), {UD 2218}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and for any soldier serving in any Indian war since 1790. See also entry for UD 2239 below.

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 3, 1855 {UD 2225}. Warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres. See also entry for UD 2239 below.

Colorado/Oregon (1 vol., 1 in.)
Dalles, Lakeview, Roseburg, Le Grande, Oregon City

Oregon City/Winchester/Roseburg, 1857–68 (vol. 275, 2 in.)
Roseburg/Oregon/Le Grande, 1868–76 (1 vol., 1 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. The act of July 27, 1842, extended by 5 years the redemption period for warrants previously issued to persons serving in the War of 1812. Under the act of March 22, 1852, warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable.

Acts of 1842, 1847, 1852
North Dakota/South Dakota/Florida/Louisiana/Mississippi/New Mexico/Oregon/Missouri, 1853–1904 (1 vol., 1 in.)

Act of 1850

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in South Dakota: Belle Fourche, Chamberlain, Lemmon, Mitchell, Pierre, Rapid City, and Aberdeen/Timber Lake. In 1964 the BLM adopted a new system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 40–65–0001.

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965F}, including the following:

Division "D" (Mail and Files): Abstracts of Mineral Applications, ca. 1836–1908 {UD 2290}. Volumes include abstracts covering applications for patents, adverse claims, entries, receipts and certificates. The South Dakota volumes in this series, 1877–1908 (11 vols., ca. 1 ½ ft.), are listed below; asterisks indicate entries for that particular land office are also found in a multi-State/Territory volume (2 in.) of applications for patent, 1866–1900, with annotations as late as 1905. Dates for the abstracts are not readily discernible, but they may fall outside the date span shown for the land office volumes.

Huron/Pierre/Rapid City/Yankton, 1884–1908 (1 vol, ¾ in.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "B" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 below.

TEXAS

Texas represents a unique situation since it is the only area in the contiguous States that had existed as an independent and sovereign republic. It came into the United States not as an ordinary Territory becoming a State but as a country relinquishing its independence and joining the United States upon what might be considered a treaty basis. Having already instituted its own land operations, Texas insisted that it retain control of the administration of its own lands, and it was accepted as a State on that basis. On September 9, 1850, Texas sold to the United States areas now comprising parts of Colorado, Wyoming, Kansas, Oklahoma, and New Mexico.

The Texas General Land Office in Austin was originally authorized by the Constitution of the Republic on March 17, 1836. Among the approximately 10 million documents in its files are certificates for specified numbers of acres in unclaimed public domain; field notes, patents, deeds of acquittance and supporting documents (similar to U.S. General Land Office land entry papers); and correspondence files dating from July 20, 1837. Also among its holdings are numerous documents that antedate the establishment of the office. The Spanish Archives, for example, go back to 1745, although they mainly encompass the period from 1823 to 1835.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office and application number, for the appropriate entry, which will give the patent serial number. The index includes entries for the following land offices in Utah: Salt Lake City and Vernal. In 1964 the BLM adopted a system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 43–65–0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Copies of Letters Sent to Field Divisions: Tenth Division (Utah), {965C}
Correspondence with Registers and Receivers located at Salt Lake City, Vernal {965D}
Press copies of letters sent to Registers and Receivers located at Salt Lake City, Vernal {965F}
Press copies of letters sent to the Surveyor General, Utah {965H}

Division "B": Agricultural College Scrip (116 ft.), {PI22 20}. No scrip was issued by Utah, but scrip issued by eligible States was entered at the Salt Lake City Land Office. See **Abstracts of Land Transactions** under Division "D" (Mail and Files).

Division "C": Letters Sent to Registers and Receivers, 1881–97 segment {UD 116}. Div. Entry 6.

Utah, 1881–90 (4 vols., nos. 813–816, 8 in.)

Vernal, 1905–7 (3 vols., 9 in.)	{UD 2706}

Division "D" (Mail and Files): Abstracts of Mineral Applications, ca. 1836–1908 {UD 2290}. Volumes include abstracts covering applications for patents, adverse claims, entries, receipts and certificates. The Utah volumes in this series, 1870–1908 (18 vols., ca. 2 ft.), are listed below; asterisks indicate entries for that particular land office are also found in a multi-State/Territory volume (2 in.) of applications for patent, 1866–1900, with annotations as late as 1905. Dates for the abstracts are not readily discernible, but they may fall outside the date span shown for the land office volumes.

*Salt Lake City, 1870–1905 (15 vols., ca. 2 ft.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the Act of 1850. The act also made the warrants assignable. See also entry for UD 2239 below.

California/Washington/Utah/Colorado/New Mexico/Montana/Dakota, 1858–1892 (1 vol., 1 in.)
Salt Lake City, 1869

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. All soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants under the act of March 3, 1855. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State and thereunder by land office and application number, for the appropriate entry that will give the patent serial number. The index includes entries for the following land offices in Washington: Olympia/Seattle, Spokane,. Vancouver, Walla Walla, Waterville, North Yakima, and South Yakima. In 1964 the BLM adopted a system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 46–65–001.

DIVISIONAL RECORDS

DIVISION "A": **Correspondence Files, ca. 1907–40** {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individ-

ual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Locations, Military Bounty Land Warrants, Act of February 11, 1847 {UD 2211}. Warrants were issued to noncommissioned officers, musicians, and privates serving in the Mexican War for tracts of 160 or 40 acres depending upon length and condition of service. Treasury scrip was offered as an alternative choice. See also entry for UD 2239 below.

Arizona, Colorado, Montana/Nevada/New Mexico/Oregon/South Dakota/Utah/Washington, 1857–1908 (vol. 67, 2 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 22, 1852, State and Land Offices {UD 2224}. Warrants were issued to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable. See also entry for UD 2239 below.

California//Washington/Utah/Colorado/New Mexico/Montana//Dakota, 1858–1892 (1 vol., 1 in.)
Olympia, 1873

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Act of March 3, 1855 {UD 2225}. Warrants were issued to all soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres. See also entry for UD 2239 below.

Olympia/Vancouver, 1857–68 (vol. 275, 2 in.)
Olympia/Walla Walla/Vancouver, 1868–70 (1 vol., 1 in.)

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1912 and to any soldier serving in any Indian war since 1790.

LAND ENTRY PAPERS AND RELATED RECORDS AFTER JULY 1908

Patented Serial Case Files, 1908–75 (ca. 19,966 ft.), {A1 2021A and A1 2021C}. Documents collected, created, or executed after 1908 in connection with each patented land entry constitute the numerically arranged case files for patent numbers 167–1,242,597. The case files can be retrieved easily if the patent number is known. If it is not known, the key to locating a case file is through the original land entry application number which can be found by using two card indexes covering the period 1908–64. Entries in an **alphabetical name index** (ca. 466 ft.), {UD 2137}, arranged by surname of entryman, identify the land office of entry and give the application number, which, under the system adopted in 1908, always begins with "0." This information is then used to search the **numerical index** (ca. 852 ft.), {UD 2136}, arranged by State, thereunder by land office and application number, for the appropriate entry, which will give the patent serial number. The index includes entries for the following land offices in Wyoming: Buffalo, Cheyenne, Douglas, Evanston, Lander, Sundance, and Newcastle. In 1964 the BLM adopted a system using a two-digit code for the State issuing the patent, a two-digit code for the year of issue, and the patent number, e.g., 49–65–0001.

DIVISIONAL RECORDS

Division "A": Correspondence Files, ca. 1907–40 {UD 965}. Additional Records Entry 30 [Press copies of letters sent to land offices, ca. 1907–40]. Series consists of several subseries {965A–965K}, including the following:

Copies of letters sent to Field Divisions: Seventh Division (Wyoming) {965C}

Sundance, 1897–1908 (1 vol., 1 1/2 in.)

Abstracts of Military Bounty Land Locations. In the entries shown below, volume numbers are provided to facilitate identification. The numbering system was somewhat erratic: some volumes were not numbered, some numbers were used twice, and volumes in a series were not always numbered consecutively. Overall date spans are provided if they are easily discernible. In the case of volumes covering multiple land offices, the abstracts for individual land offices may cover only part of the date span shown. Not identified here are many closely related single volume series covering several States and Territories that are filed with the records of Division "B" or the many other related series among the records of Division "D" (Mail and Files).

Division "D" (Mail and Files): Abstracts of Military Bounty Land Warrant Locations, Various States and Years {UD 2239}. Under the act of September 28, 1850, warrants were issued to officers and soldiers not previously given land for service in the War of 1812 and to any soldier serving in any Indian war since 1790. The act of March 22, 1852, authorized the issuance of warrants to militiamen called into service after 1812 under the same provisions stated in the act of 1850. The act also made the warrants assignable. All soldiers of any war since the Revolutionary War, including American Indians, chaplains, wagon masters, and teamsters who had been employed in the transportation of military stores and supplies were declared eligible to receive warrants under the act of March 3, 1855. Recipients were entitled to 160 total acres and those receiving tracts of fewer acres under previous acts were granted warrants for the balance of 160 acres.

Acts of 1850, 1852, 1855
Montana/Utah/Wisconsin/Wyoming, 1868–1904 (1 vol., 1 in.)

Act of 1855

Appendix Two

SURVEYORS GENERAL OF PUBLIC LANDS STATES WEST OF THE MISSISSIPPI RIVER

The names and dates shown in this appendix are taken from the list in C. Albert White's *A History of the Rectangular Survey System* (Bureau of Land Management, U.S. Department of the Interior, Washington, DC, 1983). Mr. White's pertinent remarks regarding the information contained in his list are quoted below:

The early records of the appointments of Surveyors General are vague and somewhat conflicting. Beginning in 1828 the records were kept in a "Bond Book" which indicated the date on which a given Surveyor General was commissioned, date of his bond, and other information pertaining to his tenure in office. Occasionally the man commissioned would decline the appointment or serve for only a temporary period. In the period 1796 to 1828 the list shows the date on which a Surveyor General was appointed or took office as determined from correspondence or reports. After 1828, the date given is the date of his commission as shown in the Bond Books. Under the "Remarks" heading is other pertinent information and dates thought to be of interest.

Several Offices of Surveyors General were responsible for the surveys in more than one state or territory such as Ohio, Indiana, and Michigan; Wisconsin and Iowa, etc. Therefore, there is duplication in the lists among the affected states.

CAUTION: This list of Surveyors General is for informative purposes only. The dates given, spelling of names, etc. has [sic.] not been positively verified and may contain factual errors. The information has been taken from the most reliable sources available without extensive individual research which, for the purpose intended, is not warranted. A considerable lapse often occurred between the date a Surveyor General was commissioned and the date he actually took charge of a particular office.

An act of March 3, 1925 (43 Stat. 1141), abolished the Offices of Surveyor General still in operation in the following States: Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, and Alaska. The equipment and records held by those offices were transferred to the Field Surveying Service of the General Land Office. Eventually some records were deposited with the NARA regional offices identified at the end of the State lists. Information about the closing of offices in other States and the disposition of their records can be found at the end of those State lists. Some letters sent by the Commissioner of the General Land Office to the Surveyors General have been reproduced as National Archives Microfilm Publication M27, *Letters Sent by the General Land Office to Surveyors General, 1796–1901* (31 rolls).

CHECKLIST OF ANNUAL REPORTS

The General Land Office was established on April 25, 1812, as part of the Department of the Treasury, and the first report on its operation was submitted by Edward Tiffin, Commissioner, to the Senate on December 31, 1813. This report appears in the *American State Papers: Public Lands*, Class VIII, volume 2, pp. 873–75. Cited in the Checklist for the period 1817 to 1825, are the Annual Reports of the Secretary of the Treasury on the State of Finances, which include tables showing the sales of the public lands, the money paid into the land offices, the expenses incident to the sales, and the money paid into the Treasury for the lands. These reports were published as part of the Congressional Serial Set. In January 1826 the Commissioner of the General Land Office compiled a statement showing for each land district "the quantity of public lands originally subject to sale, that has been surveyed, and the quantity thereof, including relinquished lands, that remain unsold," which was published in the Serial Set as a separate document (No. 20). From 1826 to 1830, annual reports of the Commissioner appear as documents transmitted to Congress by the President at the opening of the session, but from 1831 to 1834, the reports are part of the Annual Reports of the Secretary of the Treasury. From 1835 to 1849, the annual reports appear as separate documents transmitted to the Senate and House of Representatives with a covering letter by the Secretary of the Treasury. After the General Land Office was transferred from the Treasury Department to the Department of the Interior in 1849 the reports were submitted to Congress by the Secretary of the Interior, usually as part of the Secretary's annual report.

The annual reports appear regularly in the Congressional Serial Set from 1826 to 1921, with the exception of the year 1847, when a special report from the Commissioner explained why he could not comply with a Senate resolution of February 11, 1846, calling for information concerning overflowed lands. For the years 1851, 1852, and 1867, supplements to the annual reports contain reports of various Surveyors General that reached the Commissioner too late to be included in his annual report.

Beginning in 1849 the annual reports were printed in three formats. The reports of the Secretary were published as part of the Congressional Serial Set and as a separate Department set. Occasionally the two editions vary in title and format. The reports generally consist of the Secretary's summary and separate reports from the Department's component bureaus with the report of the Commissioner of the General Land Office found in part one of the multivolume reports. Information about land matters is found in both the Secretary's summary and the report of the Commissioner of the General Land Office. The Commissioners' reports also were printed as separate volumes known as the Bureau editions. The listing given here identifies the reports printed in the Congressional Serial Set. It is based on an unpublished analysis and listing of the reports prepared by a National Archives staff member in 1942 and entries taken from the *Checklist of United States Public Documents, 1789–1909, Third Edition, Revised and Enlarged, Volume 1: Lists of Congressional and Departmental Publications* (Washington: Government Printing Office, 1911, and New York: Kraus Reprint Corporation, 1962).

The entries in each of the sections below give the year, Congressional Serial Set volume number, and document number. When two volume numbers are shown for each year, the first is for the Senate edition, the second for the House edition. Single volume citations are to the House edition.
